

After a late afternoon nap one day, I woke up to find that Elaine had lit the third candle in our Chanukia (the nine-branched candelabra) and was waiting with a gift for me.

Then it was time to celebrate Christmas. And this was a first for me. It was the first time that I had celebrated

Christmas in the traditional way. Lots of family, friends, food, gifts, singing and fun ... with a strong emphasis on the Messiah's birth.

As Elaine and I discussed it, we realized that we really have a special

blessing because we can celebrate both holidays with joy.

Ministry Ahead

Fortunately for us, January was a fairly slow month. Aside from doing several television and radio programs, we've concentrated on organizational matters. February will bring with it more radio and TV exposure.

We will be leaving for Los Angeles on March 8th for a meeting of the Lausanne Consultation on Jewish

Evangelism. Then to Monterrey, California for two church meetings; then to Pinehurst, N.C. for a four days of revival at Harvest Church.

We had planned a tour to Israel in April, but, obviously, that trip has been postponed. We will, however, be doing three Passover Seders in Sarasota, Florida area in addition to our own home Seder.

May will be a busy month. I will be in Oklahoma City, to be the commencement speaker at the American Bible College, then on to Los Angeles, San Jose and San Francisco for meetings.

More about this later.

For now, do know that I am grateful to you. You continue to bless me with your prayers, confidence, encouragement and financial support. Indeed, without your help, the work of this ministry could not continue.

Ever your brother,

Stan
Stan

Our Mission is

to help motivate and equip the Church to bring the good news of Jesus to the Jewish people. We will achieve this goal through personal witness, appearing on radio and television programs, conducting seminars, providing teaching tapes, ministering in churches, leading trips to Israel and providing personal ministry in the United States and overseas.
